Brand Quick Reference

BRAND ESSENCE

Luxury inbound safari specialists across Southern & East Africa. Consultation-led, not a booking platform. Visual identity should read as authority, craft and restraint — closer to Aman or Singita than a typical travel agency.

Mark is fixed — never redrawn or recoloured outside Ink / Ivory / Brass / Heritage Sand / White. Clear space on every side = height of the icon. Min size 32px digital (stacked), 20px (icon alone).
Sub-brands (Sabi Sand, Amakhala, SafariBookNow): same icon, same serif setting — only the name beneath changes.

VOICE & TONE

- Authoritative, warm, never salesy
- Specific beats superlative — name the lodge, not “unforgettable”
- Declarative sentences; exclamation points rarely, if ever
- Speak as “we”, not third person, in client-facing copy

PHOTOGRAPHY DIRECTION

- Cinematic, restrained — golden hour, one clear subject
- Wide environmental shots with real negative space
- Avoid: stock grids, midday flat light, oversaturated HDR
- Authentic guest moments, not generic stock people
