

WHAT THIS IS

Identical page architecture to Option 3 — the reserve-CMS system you loved — but every colour decision now comes from the Ink Edition. Safari Brass replaces the pale gold as the call-to-action accent, which flips the button rule back to white text. Status badges are re-tuned to sit naturally inside the Ink palette family. One system, one set of colour rules, across brand book and CMS alike.

PALETTE — STRAIGHT FROM THE INK EDITION

#171411

Ink
Nav & footer — unchanged; the CMS already matches.

#F6F1EA

Warm Ivory
Body ground — unchanged; the CMS already matches.

#A8794B

Safari Brass
CTA accent — replaces #C8A96E. Deeper, richer; takes WHITE text.

STATUS BADGES — RE-TUNED TO THE INK FAMILY

The CMS’s four-state badge idea is kept — it’s genuinely useful — but each colour is pulled into the core palette: Brass carries “Available”, Heritage Sand carries “By Arrangement”, Charcoal carries “At Lodges”, and the green deepens to match the palette’s saturation.

INCLUDED

AVAILABLE

BY ARRANGEMENT

AT LODGES

CTA BUTTON — BACK TO THE CORE RULE

START PLANNING / ENQUIRE

White text on Safari Brass — the core system’s rule, restored. Deeper than the pale gold, it reads richer against both the cream body and the dark nav.

CARRIED OVER FROM OPTION 3 UNCHANGED

- Tag-pills on lodge cards — now Warm Ivory fill with Soft Charcoal text, 2-3 per card
- Quick-facts booking sidebar — price, rating, four value props, sticky Brass CTA
- Sticky in-page sub-nav on lodge pages (Overview / Gallery / Rooms / Experiences / Facilities / Best Time / Reviews)
- Month-by-month season grid — Peak months marked in Brass, Shoulder in Heritage Sand, Low in Bone
- Accreditation footer row + review counts by platform — Brass eyebrow labels
